1. <sup>Friedrich</sup> ~~Dr. von~~ THALER was a member of the NSDAP Sicherheitsdienst in Austria prior to 1938. In 1945 he founded a chemical plant in Kufstein, Land Tyrol, and established connections with the FIS shortly thereafter. 1 Sometime during 1947, THALER contacted one ~~Dr.~~ <sup>Dr.</sup> ENDRES who was at that time working for the RIS. 2
2. In 1948 THALER became associated with Dr. Kurt WESSELY who was then active for ZIPFER in the field of Austrian economic and domestic policy. 3 A possible partial reason for the THALER-WESSELY relationship is the fact that WESSELY's Hungarian born wife was living in Budapest with her two children, and was free to travel between Austria and Hungary. Mrs. WESSELY's father was a high ranking official in the Hungarian Ministry of Trade at the time.
3. THALER reportedly asked WESSELY to furnish him with economic and domestic policy information on Hungary. It is not known that WESSELY complied with THALER's repeated demands, however, Hungarian refugees in the realm of intelligence purport to believe that due to the fact that Mrs. WESSELY's father was sent to northern Hungary during 1952 and was later held in confinement in Plattensee, there is evidence that the WESSELY's were working for the RIS.
4. THALER frequently travels outside of Land Tyrol to all parts of Austria. In the Linz and Graz areas, THALER has tried to recruit former NSDAP Sicherheitsdienst members, promising them financial rewards. In his attempt to recruit these people, he proposed cooperation with the FIS and only later mentioned the RIS. He has met with little success in his recruitment efforts, particularly in the Graz area.
